SECURITON

Securiton DFU 911 dust filter unit

Product code 61411 · Aspirating smoke detection › Filters and maintenance

Dust filter installed in the sampling pipe for dusty and dirty areas. Extends smoke sensor service life and reduces false alarms.

- Replacement cartridge RFC 911
- Filter service life monitoring in the ASD detector
- Not for deep-freeze, outdoor or very humid areas

Product description

DFU 911 is Securiton's dust filter unit, installed in the sampling pipe in dusty or dirty areas. According to the manufacturer, it significantly extends the service life of the smoke sensor, airflow sensor and fan and reduces false alarms. The two-part housing opens with lock clamps for replacing the RFC 911 cartridge.

The filter is preferably installed below the detector, immediately before it: at least 10 cm away for ASD 531/532 and at least 20 cm for ASD 533/535. The detector can monitor the application-specific service life of the filter and signal a fault when it needs replacing. According to the catalogue, the unit is not suitable for deep-freeze, outdoor or very humid areas.

Technical data

Product code	61411
Manufacturer	Securiton
Manufacturer's code	DFU 911 (11-2300030-01-02)
Product group	Aspirating smoke detection › Filters and maintenance
Replacement filter	RFC 911
Pipe connection	Ø 25 mm
Operating temperature	0…+60 °C
Material	ABS blend, UL 94-V0
Dimensions	210 × 111 × 137 mm (H × W × D)
Weight	490 g

Compatibility	ASD 531, ASD 532, ASD 533, ASD 535, ASD 2000

Documents
