

EMEX

MX40 sign panel 4 mm, E3 down

Product code 970010 · Emergency lighting > MX luminaires

Sign panel for the MX40 exit sign: arrow down (E3). The panel slides into the luminaire body, and the viewing distance of the luminaire is 40 m.

- > Arrow direction down (E3)
- > For MX40 exit sign bodies
- > Viewing distance 40 m (EN 1838)
- > Dimensions 200 × 400 mm
- > Slide-in mounting: clicks into place and is locked with a screw

Product description

This Emex MX40 sign panel is an escape route sign with a running figure and an arrow pointing down (manufacturer's designation E3). The panel is fitted in the body of the MX40 exit sign, which illuminates the whole panel in both normal and emergency mode. The viewing distance of the complete exit sign is 40 m.

The panel meets the requirements of EN 1838: the luminance of the green area is at least 2 cd/m², the contrast between the white and green areas is 1:5–1:15 and the contrast within the same colour is less than 1:10. The signs comply with EN ISO 7010.

Compatibility

The panel fits MX40 bodies 840100 (1 h), 840300 (3 h) and 840302 (black, 3 h). It also fits the RX bodies with a red cross (840101, 840301 and 840303), in which the panel is single-sided and the red cross panel is fitted on top of it. A complete exit sign consists of the body, the analogue base 3312FLW/3312W and the sign panel, which are ordered separately.

Installation

The panel is slid into the mounting profile of the body until it clicks into place and is locked with the fixing screw. Finally, the panel is turned to face the correct direction.

Technical data

Product code	970010
Manufacturer	Emex
Product group	Emergency lighting > MX luminaires
Dimensions	200 × 400 mm
Marking	E3
Viewing distance	40 m (in the MX40 luminaire)
Compatibility	MX40 housings 840100 (1 h), 840300 (3 h) and 840302 (black, 3 h)
Standards	EN 1838, EN ISO 7010

Documents

The manufacturer's original documents can be downloaded from the product page (QR code at the top of this sheet).
