

PANASONIC

Panasonic 2218 remote indicator

Product code 42140 · Fire alarm systems > Field devices > Alarm devices

Remote indicator (LED) connected to the detector mounting base. Used when the detector is concealed or out of sight, for example above a suspended ceiling.

- > Lights up at the same time as the detector or base indicator
- > Suitable for both analogue and conventional detectors
- > Connected to the indicator output of the base
- > Operating voltage 5–35 V DC
- > Wall mounting, IP42

Product description

Panasonic 2218 is a remote indicator that is connected to the detector mounting base. It is used when the detector is located out of sight, for example above a suspended ceiling, in a locked room or otherwise concealed. The remote indicator shows directly which detector is in alarm, so there is no need to search for the concealed detector.

The LED of the remote indicator lights up at the same time as the indicator of the detector or base to which it is connected. Depending on the connected detector, the light is steady or flashing. The remote indicator can be connected to all detectors and bases that have an external indicator output, in both analogue and conventional systems. The device is intended for dry indoor spaces.

Installation

The indicator is mounted on the wall; screws are not included. From the base of a conventional detector, it is connected to terminals J2:1 (+5...+35 V DC) and J2:3 (0 V); from the base of an analogue detector, to terminals J2:2 (+, max. 25 mA) and J2:3. Jumper JP1 must always be open. There is no terminal for the cable screen.

Technical data

Product code	42140
Manufacturer	Panasonic
Product group	Fire alarm systems > Field devices > Alarm devices
Weight	62 g
Dimensions	87 × 87 × 30 mm
Operating temperature	–10...+60 °C
Operating voltage	5–35 V DC (nominal 24 V DC)

Current consumption	6.7 mA (J2:1), max. 25 mA (J2:2)
Material	PC/ABS, lens PMMA
Colour	White
IP rating	IP42
Humidity	Max. 90% RH, non-condensing
Mounting	Wall mounting, indoors
Standards	EN 61000-6-3, EN 50130-4, EN 50581

Documents

The manufacturer's original documents can be downloaded from the product page (QR code at the top of this sheet).

Technical datasheet: 2218 remote indicator

Certificate: Declaration of conformity
