

PANASONIC

Panasonic 3407-7127 adjustable bracket for Talentum flame detectors

Product code 41953 · Flame and gas detectors > Flame detectors

Adjustable stainless steel mounting bracket for Talentum flame detectors. The detector can be aimed 45° downwards and ±45° sideways.

- Adjustment from horizontal 45° downwards and ±45° sideways
- Stainless steel (AISI 304)
- Suitable for Talentum IR2, IR3 and UV/IR2 flame detectors
- Dimensions 92 × 82 × 120 mm, weight 0.7 kg

Product description

Panasonic 3407-7127 (FFE 07127-00) is an adjustable mounting bracket for Talentum flame detectors. The field of view of a flame detector must be aimed at the area to be monitored, and the bracket allows the detector to be tilted 45° downwards from horizontal and turned ±45° to the left or right. The bracket is made of stainless steel (304).

According to the manufacturer, the bracket is suitable for the Talentum series flame detectors IR2, IR3 and UV/IR2 and for their intrinsically safe (I.S.) and flameproof (Ex d) versions. In Panasonic's range, these include, for example, the flame detectors 3407 (Talentum IR3) and 3408 (Talentum UV/IR2).

Installation

The bracket is mounted on a wall or structure, and the flame detector is fixed onto it. Aim the detector so that the area to be monitored is within its field of view; in an installation complying with EN 54-10, the viewing angle must not exceed ±30°. The dimensions of the bracket are 92 × 82 × 120 mm (L × W × H).

Technical data

Product code	41953
Manufacturer	Panasonic
Product group	Flame and gas detectors > Flame detectors
Manufacturer's code	FFE 07127-00
Material	Stainless steel (304)
Dimensions	92 × 82 × 120 mm (L × W × H)
Weight	0.7 kg
Adjustment range	45° downwards, ±45° sideways
Compatibility	Talentum IR2, IR3, UV/IR2 (also I.S. and Ex d)

Documents

The manufacturer's original documents can be downloaded from the product page (QR code at the top of this sheet).
