Panasonic 5020 mounting plate for 19" rack

Product code 41037 · Fire alarm systems > Control equipment

Metal mounting plate for installing the Panasonic EBL512 G3 fire alarm control panel in a 19-inch equipment cabinet. Replaces the panel's standard mounting plate.

- For mounting the EBL512 G3 panel in a 19" rack
- Replaces the panel's standard mounting plate
- Metal construction
- Suitable for panel models 5000 and 5001

Product description

Panasonic 5020 is a metal mounting plate that allows the EBL512 G3 fire alarm control panel to be installed in a 19-inch equipment cabinet, or rack, instead of on a wall. The plate replaces the standard mounting plate supplied with the control panel.

Rack mounting suits sites where the fire alarm control panel is placed in an equipment cabinet together with equipment from other systems.

Compatibility

The plate is intended for the EBL512 G3 control panels 5000 and 5001. The external dimensions of the plate are 483 × 622 × 177 mm, which corresponds to the width of a 19-inch (483 mm) rack.

Installation conditions

The plate weighs 7.9 kg. The manufacturer specifies an operating temperature of -5...+40 °C and relative humidity below 95%, which corresponds to indoor installation of the control panel. The control panel and other necessary panel equipment are ordered separately.

Technical data

Product code	41037
Manufacturer	Panasonic
Product group	Fire alarm systems > Control equipment
Weight	7.9 kg
Dimensions	483 × 622 × 177 mm
Operating temperature	-5...+40 °C

Humidity	Below 95% RH
Material	Metal
Mounting	19" rack
Compatibility	EBL512 G3 (5000, 5001)
