Product description

Panasonic 5021 is a metal mounting plate for the EBL512 G3 fire alarm control panel. It replaces the standard mounting plate of the control panel when the panel is installed on a combustible wall surface, for example a timber-framed wall.

The plate is made of metal; the manufacturer specifies the materials as aluminium, zinc and iron. The plate is installed between the control panel and the wall.

Compatibility

The mounting plate is intended for the EBL512 G3 control panels 5000 and 5001. The dimensions of the plate are 392 × 600 × 57 mm and it weighs 4 kg.

Installation conditions

The manufacturer specifies an operating temperature of -5...+40 °C and relative humidity below 95%, which corresponds to indoor installation of the control panel. Check the need for the mounting plate in accordance with the fire regulations applicable to the site and the installation instructions of the control panel; the control panel is ordered separately.
