

PANASONIC

Panasonic AU003 exhaust kit with flexible hoses

Product code 60313 · Aspirating smoke detection > Pipes and installation accessories

Exhaust kit for the Aspect detector with flexible hoses for THUB and VULCAN installations. Leads exhaust air away or back to the monitored room and reduces fan noise.

- Snaps into the detector's exhaust port without tools
- Two exhaust pipes, each up to 4 m
- Reduces fan noise by 5–10 dB

Product description

AU003 is Panasonic's exhaust kit for the Aspect aspirating smoke detector. It has flexible hoses and is intended for detectors installed on a THUB console with a VULCAN filter. The kit allows two exhaust pipes of up to 4 m to be connected to the detector. The exhaust air is led away from the detector, or back to the monitored room if there is a pressure difference between the rooms.

According to Panasonic's technical description, at least 0.5 m of exhaust pipe is used in dusty areas and freezer rooms. The kit also reduces fan noise by 5–10 dB. The length of the exhaust pipes is included in the total pipe length.

Technical data

Product code	60313
Manufacturer	Panasonic
Manufacturer's code	AU003
Product group	Aspirating smoke detection > Pipes and installation accessories
Compatibility	Aspect AE2010, THUB, VF 250 com
