

PANASONIC

Panasonic DIAMANT flow sensor protection filter, 50 pcs

Product code 60303 · Aspirating smoke detection > Filters and maintenance

Filter module protecting the Aspect detector's flow sensor, with tubes. Replaced at the annual service. 50 pcs.

- Protects the flow sensor against particles and condensation
- Collected dirt is visible through the clear front
- Replaced annually or on service code 5

Product description

DIAMANT is Panasonic's filter module that protects the flow sensor of the Aspect aspirating smoke detector against particles and condensation. As a spare part it is supplied as a kit with the necessary tubes. The pack contains 50 pieces.

DIAMANT is moulded from clear plastic, so collected particles are visible at its front when the main filter cartridge has been removed. It is replaced at the annual inspection or when the detector gives service code 5. The flow sensor can be cleaned with the SS 001 syringe at the same time.

Technical data

Product code	60303
Manufacturer	Panasonic
Manufacturer's code	DIAMANT
Product group	Aspirating smoke detection > Filters and maintenance
Pack size	50 pcs
Replacement interval	Annually or service code 5
Compatibility	Aspect AE2010

Documents

The manufacturer's original documents can be downloaded from the product page (QR code at the top of this sheet).

Product catalogue (series): Aspect AE2010 accessories

Technical datasheet (series): Aspect AE2010
