

PANASONIC

Panasonic 6360 detector guard

Product code 42180 · Fire alarm systems > Accessories

Detector guard that protects a Panasonic detector installed in a mounting base from physical damage in areas where the detector may be subject to impacts or knocks.

- Protects the detector from mechanical damage
- For all Panasonic base-mounted detectors
- M4 locking screw, replaceable with another screw head type
- Lightweight, weight 32 g

Product description

Panasonic 6360 is a detector guard that protects the detector from physical damage. It can be used with any Panasonic detector installed in a mounting base.

The guard is intended for premises where the detector could otherwise be damaged, for example by impacts or knocks.

Installation

The guard is fitted over the detector and locked with an M4 locking screw. If required, the screw can be replaced with a screw head type better suited to the site. The dimensions of the guard are Ø 148 × 100 mm and the weight is 32 g.

Operating conditions

The operating temperature is -10...+50 °C and the relative humidity below 95%. The guard does not include a detector or mounting base; these are ordered separately.

Technical data

Product code	42180
Manufacturer	Panasonic
Product group	Fire alarm systems > Accessories
Weight	32 g
Dimensions	Ø 148 × 100 mm
Operating temperature	-10...+50 °C
Humidity	Below 95% RH

Lock

M4 locking screw, replaceable

Compatibility

Panasonic base-mounted detectors
