

PANASONIC

Panasonic SN 253 P Sniffer sampling point, 3 m hose

Product code 60179 · Aspirating smoke detection > Pipes and installation accessories

Discreet sampling point with a 3 m hose for concealed pipe networks or protection against insects.

- 3 m hose, sampling head in the ceiling
- For example churches, greenhouses and electrical and server cabinets
- A 13 mm hole is drilled in the ceiling

Product description

SN 253 P is Panasonic's Sniffer sampling point with a 3 m hose. It is used when the pipe network is to be concealed, for example in churches, or protected against insects, for example in greenhouses. The sniffer can also be drawn into electrical or server cabinets. The hose is UV-protected rigid PVC and the sampling head UV-resistant ASA plastic.

According to Panasonic's technical description, a 100 m pipe can have no more than 12 sniffers and sampling holes in total, and drilled holes between sniffers must not exceed 3,5 mm in diameter. A 13 mm hole is drilled in the ceiling, and the head is fixed with 3 mm wood screws.

Technical data

Product code	60179
Manufacturer	Panasonic
Manufacturer's code	SN 253 P
Product group	Aspirating smoke detection > Pipes and installation accessories
Length	3 m (hose)
Material	Hose rigid PVC (UV-protected), head ASA
