Product description

THUB is Panasonic's mounting console for the Aspect aspirating smoke detector. The console is fixed to the wall and the pipes are installed to it in advance, and the detector is snapped on last. This keeps the detector clean during the construction phase. Up to four pipes can be connected.

The console has a self-emptying condensate reservoir for handling condensation in low-humidity environments. According to Panasonic's technical description, the AU003 exhaust kit with flexible hoses is used with THUB and VULCAN.
