

SECURITON

Securiton NetSoft Max software licence, 161 or more detectors

Product code 61360 · Aspirating smoke detection > Networking, control and software

NetSoft licence for central visualisation, operation and configuration of 161 or more aspirating smoke detectors from a computer.

- Licence for 161 or more detectors
- Entire ASD network on a floor plan, states shown in colour
- Event monitoring, remote control, event log and trend view

Product description

NetSoft Max is a Securiton NetSoft software licence for 161 or more aspirating smoke detectors. NetSoft displays live data from the detectors on a computer: all detectors in the system are shown on the building floor plan, and their states are distinguished by colour. The software is used for event monitoring, remote control, event logging and trend views.

When a device is selected, NetSoft opens the ASD Config software, which can be used to configure the detector remotely. The licence size is chosen by the number of detectors in the network (NetSoft 10, 30, 50, 160 or Max). The manufacturer asks customers to contact sales for NetSoft projects.

Technical data

Product code	61360
Manufacturer	Securiton
Manufacturer's code	NetSoft Max (VE100475)
Product group	Aspirating smoke detection > Networking, control and software
Licence	161 or more detectors
Software	NetSoft (UMS)
