Recessed mounting frame MX Light, white

Product code 920007 · Emergency lighting > Accessories

White recessed mounting frame for flush mounting the MX Light emergency luminaire, for example in a suspended ceiling. The frame is held in a Ø 120 mm ceiling cut-out by springs.

- For flush mounting the MX Light emergency luminaire
- Ceiling cut-out Ø 120 mm
- Fits ceiling panels 5–25 mm thick
- Spring fixing, quick installation
- External frame diameter Ø 131.5 mm

Product description

The recessed mounting frame is intended for installing the MX Light emergency luminaire recessed into the ceiling. In flush mounting, the luminaire base remains above the ceiling, and only the low-profile frame and the luminaire lens remain visible. The solution suits sites where appearance matters, such as hotels and offices.

Installation

A Ø 120 mm opening is drilled in the ceiling. The frame fits ceiling panels 5–25 mm thick and is held in place by springs. The analogue base of the luminaire is fixed to the frame's mounting plate with screws, after which the luminaire is fitted to the base in the normal way. The external diameter of the frame is 131.5 mm and the recess depth approx. 25 mm. The frame is white; the manufacturer also has a black version (920008).

Compatibility

The frame fits MX Light emergency luminaires, which are available with a corridor lens (Corridor), a round lens (Round) and a high-ceiling lens (High Ceiling), and with a rated duration of 1 or 3 hours. The recessed mounting frame is one of the accessories in the Emex MX series, which also include ball guards and a threaded rod plate.

Technical data

Product code	920007
Manufacturer	Emex
Product group	Emergency lighting > Accessories
Product number (Emex)	920007
Ceiling cut-out	Ø 120 mm
Dimensions	Ø 131.5 mm, recess depth 25 mm
Ceiling panel thickness	5–25 mm

Colour	White
Mounting	Recessed ceiling mounting, spring clips
Compatibility	MX Light emergency luminaire
